

Spiritual, Moral, Social & Cultural Development (SMSC) in

ENGLISH

In English we seek to broaden pupils' self, social and cultural awareness.

We promote an inclusive environment which encourages our pupils to love and value literature from different ages and from different cultures.

Through exploring a range of non-fiction texts in language lessons, we aim to equip our pupils with exceptional communication skills, enabling them to become confident readers, writers and speakers who are prepared for the competitiveness of their lives beyond the college, and giving them the ability to resolve conflict and question what is right and wrong.

Through exploring fiction work we develop our students' contextual and cultural understanding and their appreciation of the wider world and the ideas and experiences within it.

Students are given the opportunity to vocalise their thoughts and are given the experience to deliver formal speeches on topics of their choice and to offer substantiated opinions on modern day matters.

Students also develop their communication techniques by developing their skills in writing substantiated extended pieces of writing.
