

Spiritual, Moral, Social & Cultural Development (SMSC) in

MODERN FOREIGN LANGUAGES

AIMS:

In Modern Foreign Languages we aim to raise awareness and understanding of different cultural codes in other countries, and encourage students to reflect on aspects of their own lives in relation to these.

Through the learning of a modern foreign language, students can develop tolerance and the ability to reflect on various religious and cultural practices.

Ultimately, studying a modern foreign language can help develop values and skills to enable students to become global citizens, whilst showing humility and compassion towards others through working together.

MFL allows students to develop their understanding and knowledge of our key European partners and will allow them to appreciate the cultures and environments of countries that will visit in their futures.

Further afield the history of Europe means that the languages we teach at All Saints, French and Spanish, are important in the wider context of the world and this allows them to become truly global citizens.
