“For I know the plans I have for you, declares the LORD, plans for welfare and not for evil, to give you a future and a hope” Jeremiah 29:11

We believe that students deserve a Citizenship and PSHE experience which equips pupils to live healthy, safe, productive, capable, responsible and balanced lives through core themes of health and wellbeing, relationships and living in the wider world. Our intent is to provide a curriculum that offers opportunities for pupils to reflect on and clarify their own values and attitudes and explore complex and sometimes conflicting range of values and attitudes they encounter now and in the future.

Our Citizenship and PSHE curriculum will give students the opportunity to:

- Identify their personal qualities, attitudes, skills, attributes and achievements and what influences these.
- Apply academic skills such as critical thinking and resilience, to their approach to the study of Citizenship and PSHE.
- Promote pupils’ spiritual, moral, social and cultural development.
- Explore their attitudes, values and beliefs about them and develop the skills, language and strategies needed to manage any issues should they encounter them in their lives. Encouraging high aspirations to maximise progress and to enable all pupils to experience the joy of success.
- Equip all pupils with the knowledge and skills they need to stay safe and be able to communicate when they do not feel safe

- Have access to expert independent, up-to-date careers guidance that gives our pupils the best information and opportunities available and helps them progress into further education, training and employment.
- Understand citizenship education and the mechanism of democracy. Pupils should also explore the values and advantages of a democratic life and develop the qualities of an independent, critical-minded person.

Be inspired. Be excellent. Succeed
